Improvements to the Public Registers of the NSW Biodiversity Offsets Scheme – 17 August 2023

## Question and answer

**Topic: Filtering** 

Can the filter column be widened so that you can read the data (this may apply to other long fields like Plant Community Types)?

A user can hover their cursor over long entries to view the full text for an entry. Columns can also be auto-sized to show the full text of an entry by hovering over the column title, clicking the 3-bar icon that appears, and selecting 'Auto-size this column'. The department has noted this improvement to filtered columns specifically for consideration in a future version of the public registers.
